

MIB Tech Solutions

Customer FAQ — Approved Answers

General Questions

Q1. How quickly can you deliver a custom solution?

Delivery timelines vary by project scope. As a general guide, MVPs are typically delivered in 4–8 weeks, and complete solutions in 8–16 weeks. A detailed, project-specific timeline is always provided during the Discovery phase of engagement.

Q2. Do you provide ongoing support and maintenance?

Yes. MIB offers comprehensive maintenance and support packages, including options for 24/7 critical support. Support plans can be tailored to a client's specific needs and budget.

Q3. What technologies do you work with?

MIB specializes in modern technologies including React, Node.js, Python, TensorFlow, AWS, Docker, PostgreSQL, MongoDB, Kubernetes, TypeScript, Next.js, and GraphQL, among others.

Q4. Can you integrate with our existing systems?

Yes. MIB has extensive experience integrating with legacy systems, third-party APIs, and existing software stacks — seamless integration is described as one of the company's core strengths.

Q5. Do you offer free consultations?

Yes. MIB provides a free 30-minute consultation to discuss project requirements, explore how the team can help, and answer any questions before an engagement begins.

Q6. What is your pricing model?

MIB offers flexible pricing models, including fixed-price projects, time & materials, and dedicated team arrangements. The team works with each client to find the best fit for their project.

Troubleshooting

No troubleshooting-specific questions are published on the MIB Tech Solutions website at this time. As a B2B services engagement, ongoing technical issues are handled directly through the support/maintenance packages referenced in Q2 above, rather than a public self-service troubleshooting FAQ.

Still Have Questions?
